

1 Tests

1.1 Test ID : 22 - Verify that user should get auto suggestions while searching for videos in the YouTube search bar.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user should get auto suggestions while searching for videos in the YouTube search bar.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

user should get auto suggestions while searching for videos in the YouTube search bar.

1.1.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box
Step 4	type video name like cricket 2019	user able to type video name fine
Step 5	while type video name like cricket 2019 suggestions should drop all match bottom on search box	user should able to see while he or she type all suggeations box down

1.2 Test ID : 21 - Verify that other attributes of video like artist name, description should also be searchable

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that other attributes of video like artist name, description should also be searchable	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

attributes of video like artist name, description should also be searchable

1.2.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	click on search box type artist name like "akon song 2020" and click enter	user should able to type on search box and able to find perticular artist name

1.3 Test ID : 20 - Verify that video should be searchable by name, displaying the most relevant video on the top in search results.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that video should be searchable by name, displaying the most relevant video on the top in search results.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

video should be searchable by name, displaying the most relevant video on the top in search results.

1.3.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	write the video name like "how to play cricket "	user should able to see when write " how to play cricket " youtube suggestions should drop same relevant video link below

1.4 Test ID : 19 - Verify that once the video is complete, user can replay the video using replay icon.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that once the video is complete, user can replay the video using replay icon.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20

Execution Status	Passed	Subject	YouTube
------------------	--------	---------	---------

Description

once the video is complete, user can replay the video using replay icon.

1.4.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	on the main page search box type video name like "song2020"	user able to open song 2020 page with all available song successfully
Step 5	click on any video below on page	user should see the perticuler video open
Step 6	watch the video fully minute on video requirements and click on replay icon to see over again	user should see after click replay button the perticuler video again start

1.5 Test ID : 18 - Verify that user can select the allowed video quality for playing the video.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user can select the allowed video quality for playing the video.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

select the allowed video quality for playing the video on youtube

1.5.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	click on any video to start paly on home screen	user should able to play select video successfully

Step 5	on video screen bottom right side click on settings icon	user able to open settings icon fine
Step 6	click on quality appliaction and select the Ram of quality of video like (1000p HD)	user able to select quality level fine

1.6 Test ID : 17 - Verify all the video player controls- play, pause, volume, mute etc.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify all the video player controls- play, pause, volume, mute etc.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

video player controls- play, pause, volume, mute etc. work accordingly

1.6.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	select any video from home page and click on selected to play	user able to select video fro home page and video page should open fine
Step 5	on video screen click on play icon to start video . click on pause icon on play screen click on sliding router to control volume on video screen click on mute video screen	user able to start video on clicking on play button user able to pause video on clicking pause button user able to sliding volume bur and control the volume level user able to mute the volume for silence mode

1.7 Test ID : 16 - Verify that on clicking the video play icon over the video, the video should play.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that on clicking the video play icon over the video, the video should play.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

clicking the video play icon over the video, the video should play.

1.7.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	on serach type any perticuler video name like "song 2020"	user able to find "song 2020" fine
Step 5	click on the video on below on main screen	user should able to open specific video on home screen successfully
Step 6	click on video play icon to start video	user able to start video successfully

1.8 Test ID : 15 - Verify that video page can be opened by direct link to a video

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that video page can be opened by direct link to a video	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

video page can be opened by direct link to a video accordingly

1.8.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	click on any video to start paly on home screen	user should able to play select video successfully
Step 5	click on error  on bottom right side see link on diffrent video	user able to open error page and see other video link fine
Step 6	click on link	user able to click the link and should another video page open

1.9 Test ID : 14 - Test scenarios for Video Viewing Functionality

Field Label	Field Value	Field Label	Field Value
-------------	-------------	-------------	-------------

Test Name	Test scenarios for Video Viewing Functionality	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

Video Viewing Functionality

1.9.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on video icon above on right side youtube bar	user should be open video uploade site
Step 4	providd valid email or phone number and click next	user should able to type valid email or phone number
Step 5	provide valid password and click next	user should type his password fine
Step 6	click on search button type video name and click for search	user should see the select video page open successfully
Step 7	click on play icon to start video	user able to start video fine
Step 8	select volume button for volume level	user able to control his volume level fine
Step 9	select sliding button for skip	user should able to slide video fine
Step 10	select miniplay screen to make big screen and big screen to miniplayer screen	user can able to select screen selection fine
Step 11	select subtitles option to see languages	user able to see languages on screen
Step 12	click on setting icon for video selection	user able to do setting option fine
Step 13	click pn default view and theater mode	user able to select both mode fine

1.10 Test ID : 13 - Verify that user can reply to the comments posted in their videos.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user can reply to the comments posted in their videos.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

user can reply to the comments posted in their videos.

1.10.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	click on any video to start paly on home screen	user should able to play select video successfully
Step 5	go to buttom part of video or scrool down and select comment clcik on replay icon	user able to open a video comment page and select replay icon fine
Step 6	type on replay box and click post	user able to type the comment and able to post comment

1.11 Test ID : 12 - Verify that user can view likes, dislikes and comments for their videos.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user can view likes, dislikes and comments for their videos.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

ser can view likes, dislikes and comments for their videos.

1.11.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	click on any video to start paly on home screen	user should able to play select video successfully
Step 5	scrolls down bottom page and see viewer like icon . dislike icon . and comment line	user able to see all like . dislikes. and comment successfully

1.12 Test ID : 11 - Verify that uploaders get notification of comments posted on the videos uploaded by them.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that uploaders get notification of comments posted on the videos uploaded by them.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

uploaders get notification of comments posted on the videos uploaded by them.

1.12.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on notification icon top on right side youtube bar	user should able to see all comments on notification screen fine
Step 4	clcik on comments notification to see person name, time .etc...	user should able to see person name ,time post , etc ... on notification screen successfully

1.13 Test ID : 9 - Verify that user can upload multiple videos or allowed format and see successfully.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user can upload multiple videos or allowed format and see successfully.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

user can upload multiple videos or allowed format and see successfully.

1.13.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name

fine

Step 4 click on any video to start paly on home screen user should able to play select video successfully

1.14 Test ID : 8 - Verify that uploading blank file should result in error message

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that uploading blank file should result in error message	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

uploading blank file should result in error message

1.14.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	on home page clcik on video icon top right side on home screen	user able to open video upload page fine
Step 4	click on upload video	select file psge should open
Step 5	select file from desktop pr gallery any blank file click open	user should able to select a blank file and message should shown error uploading

1.15 Test ID : 7 - Verify all the video formats that are allowed to upload - .mp4, .3gp, avid etc. and check that uploading file formats other that allowed results in error message.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify all the video formats that are allowed to upload - .mp4, .3gp, avid etc. and check that uploading file formats other that allowed results in error message.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

all the video formats that are allowed to upload - .mp4, .3gp, avid etc. and check that uploading file formats other that allowed results in error message.

1.15.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	on home page clcik on video icon top right side on home screen	user able to open video upload page fine
Step 5	click on upload video	select file psge should open
Step 6	click on select file and select perticular format from desktop	user able to chose perticular file from selection
Step 7	click on upload button to upload the file	user able to upload successfully

1.16 Test ID : 6 - Verify if there is any minimum size of video that is permitted to upload and any attempt to upload file size less than specified results in error message.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify if there is any minimum size of video that is permitted to upload and any attempt to upload file size less than specified results in error message.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

there is any minimum size of video that is permitted to upload and any attempt to upload file size less than specified results in error message.

1.16.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	provide valid email or phone number click next provide valid password click next	user should able to type email or number fine user able to type password fine
Step 4	on home page clcik on video icon top right side on home screen	user able to open video upload page fine

Step 5	click on upload video	select file psge should open
Step 6	upload the video user able to change .format etc....	select the video size user bale to select all functionality fine and meggage should shown error

1.17 Test ID : 3 - Verify that user can upload single video or allowed format and size successfully.

Field Label	Field Value	Field Label	Field Value
Test Name	Verify that user can upload single video or allowed format and size successfully.	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

upload singal video allowed all size and format

1.17.1 Design Steps

Step Name	Description	Expected Result
Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on search box type video name	user able to open search box and able to type the video name fine
Step 4	clcik on video on screnn to start	user able to open select video fine

1.18 Test ID : 2 - Test Scenarios for Video Uploader Functionality

Field Label	Field Value	Field Label	Field Value
Test Name	Test Scenarios for Video Uploader Functionality	Type	MANUAL
Designer	alm12()	Creation Date	2/2/20
Execution Status	Passed	Subject	YouTube

Description

check video upload functionality

1.18.1 Design Steps

Step Name	Description	Expected Result
-----------	-------------	-----------------

Step 1	launch browser_chrome	chrome should be open seccessfully
Step 2	type https://youtube.com prass enter button	youtube page should be open
Step 3	click on video icon above on right side youtube bar	user should be open video uploade site
Step 4	provied valid email or phone number and click next	user should able to type valid email or phone number
Step 5	provide valid password and click next	user should type his password fine
Step 6	click on video icon from right side on top of the page	user should open video page fine
Step 7	clcik on upload video	upload video page open fine
Step 8	select file from dasktop or video gallary and click open button	user should chose his select file and uploded to youtube
